I refer to your letter of June 27, 1978 concerning your step-daughter, Bonnie Simon, and her husband.

I plan to visit the People's Temple Agricultural Community about August 1 and will inform you of the results of the visit. I suggest that to resolve the problem of the receipt of your letters to your relatives in Guyana you send a registered letter to your relatives for which they will have to sign. This method should insure that your step-daughter has received your letter.

I trust that the above information is useful to you. Please accept my best wishes.

Sincerely,

Richard A. Mc Coy
American Consul
